INDEX Volume 3 January–December 1968

A

Abortion, incomplete, hospitalization for 7: 30
and infection 7: 35
Accidents. *See* Trauma
Acetophenetidin, hematotoxic effects of 5: 73
Adrenal crisis, management of 10: 39
Adrenal insufficiency, acquired or primary 10: 36
drugs for 10: 39
hospitalization for 10: 35
Adrenal suppression, by steroids 8: 58
Agammaglobulinemia, in autoimmune diseases 1: 44
Aging, medical programs for 8: 9
Aging center, hospital 8: 9, 48
Alcoholism, chlorpropamide contraindicated in 11: 104
and cirrhosis 8: 40
and pancreatitis 11: 36
Aldosterone insufficiency 10: 38
Almy, T. P., and Fleischner, F. G.: When To Hospitalize for Diverticulitis 1: 56
Amebiasis, in temperate zone 4: 62
Andriole, V. T., Kunin, C. M., Stamey, T. A., and Martin, C. M.: Preventing Catheter-Induced Urinary Tract Infections 2: 61
Androgen(s), as anabolic agents 1: 71
Andrus, L. H.: Paramedical Personnel and Private Practitioners 12: 64
Anemia, diagnosis of, pitfalls in 5: 38
hospitalization for 5: 58
Anesthesia, in children, hyperpyrexia and hypothermia in, management of 4: 73
Ankle, painful, osteoid osteoma causing 10: 94
Anomaly, of pulmonary vein, x-rays of 12: 76
Anorexia, androgens for 1: 71
Antilymphocytic serum, for cancer 5: 20
as immunosuppressive agent 3: 46
Appetite. *See* Anorexia
Arteries. *See* Great arteries
Ascites, in liver failure 8: 44
Asthma, therapy-resistant, in children 6: 9
Autoallergic disease 8: 24
Autoimmune disease(s), definition of 1: 43
genetic factors in 1: 46
immunologic deficiency in, therapeutic implications of 1: 46
precipitating agents in 1: 48
Autoimmunity, and transplants 5: 35

B

Bacteria, variant, identification of 10: 50
pathogenic phases of 10: 41
Bacteriuria, precatheter sterilization against 2: 68
Basal metabolic rate, in pregnancy, determination of 12: 31
Bailar, J. C., III: Computers in Medicine [Edit.] 11: 9
Barile, M. F.: Variant Bacteria and Chronic Disease 10: 40
Barron, B. A.: Medical Applications of the Computer 11: 58; 12: 47
Beierwaltes, W. H.: Thyroid Dysfunction and Pregnancy 12: 31
Bernhard, W. F., *jt. au.*: Transposition of the Great Arteries 10: 54
Berson, S. A., and Yalow, R. S.: Radioimmunoassay: A Status Report 11: 73
Biliary tract, cancer of, exfoliative cytology in 5: 59
disease of, and pancreatitis 11: 36
Biopsy, small bowel 12: 36
Bleeding, upper GI, endoscopy in diagnosis of 3: 56; surgery for 3: 60
Blood, and acetophenetidin toxicity 5: 73
Blood pressure, diastolic, new criterion for 2: 20
Board certification, and hospital staff appointment 9: 73
Braude, A. I.: Anaerobic Infection: Diagnosis and Therapy 2: 42
Bukantz, S. C.: Asthmatic Child [Edit.] 6: 9
Introducing a New Series [Edit.] 10: 10
Medicolegal 'Gray Area' [Edit.] 1: 7

C

Cahill, K. M.: Tropical Diseases in a Temperate Climate 4: 56
Calculus, of prostate, management of 3: 66
Cancer, antilymphocytic serum for 5: 20
and delayed hypersensitivity 8: 28
electron beam therapy for 6: 48
of GI tract, exfoliative cytology in 5: 56
of lung, prognosis in 7: 9, 22
multiple 7: 23
of prostate, management of 3: 64
and small lymphocyte 3: 43
See also Hodgkin's disease; Lymphoma
Cardiovascular abnormalities, and hypercalcemia, infantile 11: 87
Castle, C. H.: The Program Is Regional, the Feedback Is Local 9: 16
Catheter, three-way, urinary infections from 2: 61
Charlton, M. H.: 'Traveling' Neurologic Service 7: 42
Chemotherapy, for lymphoma, malignant 3: 32
Children, androgens for anorexia 1: 71
anesthesia in, hyper- and hypothermic crises in 4: 68
brain damaged, 'traveling' neurologic clinics for 7: 42
with therapy-resistant asthma 6: 9
thyroid dysfunction in 12: 31
Children's Asthma Research Institute and Hospital 6: 9, 24
Chlamydia, bacteriology of 6: 36
diseases caused by 6: 35, 45
Chronic disease, and variant bacteria 10: 41, 45
Chronic Kidney Disease, Committee on, report (Gottschalk) on hemodialysis 2: 24
Cigarettes, and lung cancer 7: 22
Cirrhosis, in alcoholism 8: 40
complications 8: 43
hospitalization for 8: 40
treatment of, dietary 8: 41
Clinical laboratories, licensing of, interstate 2: 18
Cockerham, L., *jt. au.*: Exfoliative Cytology and GI Cancer 5: 56
Cohen, W. J.: The Aged: A 'Total' Approach [Edit.] 8: 9
Colon, spastic, vs diverticulitis 1: 57
Computer(s), analog, functioning of 11: 63
digital, functioning of 11: 58
in hospitals, pros and cons 11: 9; 12: 47
medical uses of 11: 58; 12: 47
national data bank, and patient mobility 12: 47
Connective tissue, lysosome effects on 2: 31
Cooke, R. E.: Infantile Hypercalcemia and Vitamin D 11: 87
Coronary care units, in regional hospitals 9: 16
Cortisol, metabolism of 10: 35
Coumarin anticoagulants, drugs interfering with 7: 51
Cystic fibrosis, differentiation from celiac sprue 12: 36

D

Daughaday, W. H.: Endocrinology's New Potential [Edit.] 10: 9
Deane, N.: Uremia: Priorities and Progress [Edit.] 2: 9
Death, definition of, legal 12: 16
Desegregation, and Medicare emergency services 7: 14
Diabetes, "autoallergic," 8: 28
oral hypoglycemics for, choice of 11: 100
Diastolic pressure, muffling as criterion 2: 20
Disease(s), autoimmune, and deficiency states 1: 43
Disinfectant, infant deaths from 1: 14
Diuretics, in aldosterone insufficiency 10: 38
Diverticulitis, hospitalization for 1: 56
DNA, infective, biosynthesis of 4: 29
research on, and inadequate funding for 4: 9, 34
Dreiling, D. A.: When To Hospitalize for Pancreatitis 11: 36
Drugs, and adrenal insufficiency 10: 39
for cirrhosis 8: 41
interference of, with coumarin anticoagulants 7: 51
for lung cancer 7: 25
new, for hyperlipidemia 6: 55
and package insert limitations 1: 7
and premature rupture of membranes, threatened 8: 37
and upper GI bleeding 3: 60
Dudrick, S. J., and Wilmore, D. W.: Long-Term Parenteral Feeding 10: 65
